# CAN WE LIVE LONGER?

Integrated Healthcare's Promise

## The SOLUTION

The solution lies in integrated care – the coordination of mental health, substance abuse, and primary care services.

Integrated care produces the best outcomes and is the most effective approach to caring for people with complex healthcare needs.

Funding for the Summit is provided by the Mental Health Services Act (MHSA) and the County of San Diego HHSA, Behavioral Health Services through a contract, which was granted to the Community Clinics Health Network, a subsidiary of the Council of Community Clinics.
