

Father Joe's Villages 
Street Health Program

STREET MEDICINE

Taking it to the Streets

BY Meili Hau, FNP-BC, MBA

PRESENTER

Meili Hau, FNP-BC, MBA

Assistant Director of Medical Services at the
Village Health Center in Father Joe's Villages

No disclosures

Street Medicine

Part I

OBJECTIVES

1

Define the field of street medicine and the philosophy.

2

Identify the goals of street medicine

3

Identify strategies to delivering care on the street.

4

Describe the current state of street medicine.

5

Describe the conditions and specifics for starting a street medicine program.

Village Health Center

Street Medicine Definition

“Street Medicine includes health and social services developed specifically to address the unique needs and circumstances of the unsheltered homeless delivered directly to them in their own environment.” – Street Medicine Institute

Street Medicine Definition

Who

Serves unsheltered persons experiencing homelessness

What

Provides medical services to prevent medical conditions from deteriorating to the point of needing emergency care

How

Includes multi-disciplinary teams provide a variety of services including medical, behavioral health, case management, and basic humanitarian care such as food and water.

Where

Takes place in sleep environments of unsheltered PEH including encampments, parks, and under bridges.

Why

Provides a solution to the lack of healthcare access to traditional medical settings by PEH

Street Medicine Philosophy

“Go to the people” – Dr. Jim Withers

Street Medicine Philosophy

PEOPLE

- Meet people where they're at
- Homelessness is not a monolith
- Focus on building trusting relationships
- Relationship-based model
- Human-centered approach

CARE DELIVERY

- Multidisciplinary teams
- Deliver care according to the present circumstances
- Consistent & recurring presence
- Let the streets build the program
- Fight the retreat from the streets
- Provide trauma-informed care
- Recognize the structural trauma of traditional care systems

ADVOCACY

- Street medicine is a tool towards achieving health equity, justice, and peace

Build Relationships

Street medicine...

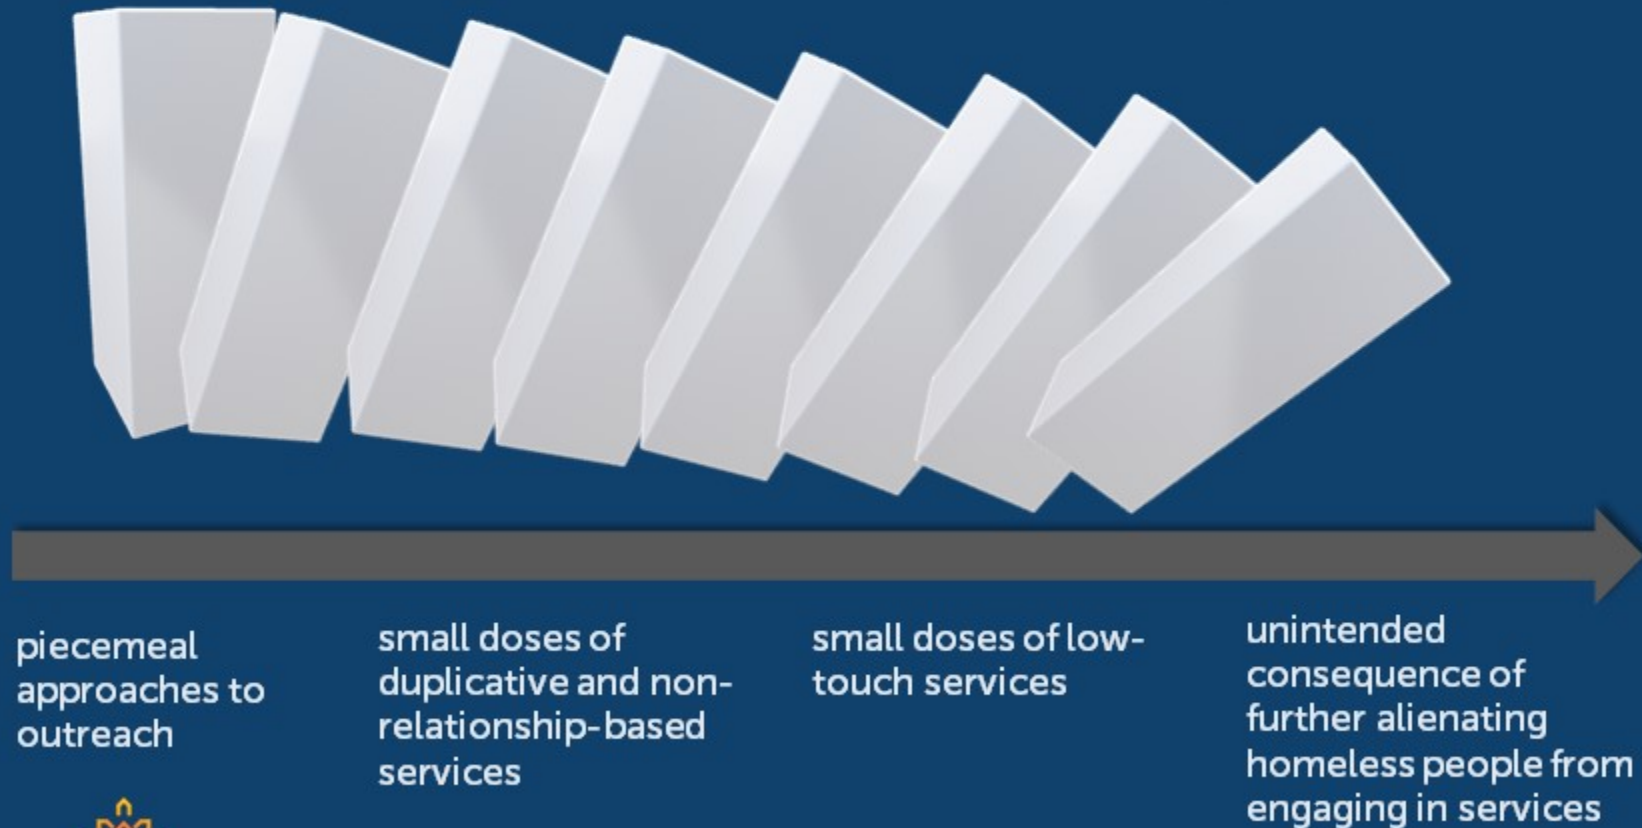

“It became less about the immediate delivery of services and more about **building trust**. For folks whose lives are so unpredictable, knowing there is space every week for them to talk to that team allows for that **relationship to build over time**.”

—Lucy Kasdin, Alameda County
Health Care for the Homeless

Street Medicine Philosophy

Build Relationships

Health Equity

CDC states health equity is achieved...

“when every person has the opportunity to attain his or her **full health potential** and no one is disadvantaged from achieving this potential because of social position or other socially determined circumstances”

Health inequities are reflected in differences in...

Length of
Life

Quality of
Life

Rates of
Disease

Disability

Death

Access to
Treatment

Severity Of
Disease

Street Medicine Goals

- Break down barriers to healthcare access
- Provide quality healthcare
- Prevent unnecessary emergency department visits
- Reduce morbidity and premature mortality
- Improve access to resources
 - Housing
 - Income
 - Supportive services
- Foster ongoing engagement with primary care and behavioral health services

SAFETY

PEOPLE

PARTNERSHIPS

Street Medicine Strategy

SAFETY

TEAM

SAFETY

- Standard precautions
- Situational awareness
- Self-care practices
- Verbal emergency phrases
- Language to avoid
- Fundamental safety actions
- Evacuation plan

PATIENT

SAFETY

- Harm reduction principles
- Team introduces themselves
- Team requests permission

PEOPLE

C

Compassion

Identify intermediaries

R

Respect

Flat team hierarchy

E

Empathy

Lead with curiosity

E

Empowerment

Motivational interviewing

D

Dignity

HOUSED BEDS Model

HOUSED BEDS TOOL

HOMELESSNESS

- Location
- Duration

OUTREACH

- Engagement with services or teams
- Existing support system

UTILIZATION

- Health care
- Social services
- Judicial system

SALARY

- Financial resources

EAT

- Access to food
- Frequency of meals

DRINK

- Access to clean water

BATHROOM

- Access to a toilet

ENCAMPMENT

- Sleep environment
- Sleep position
- Sleep patterns
- Time of day for sleep

DAILY ROUTINE

- Activity during the day

SUBSTANCE USE

- Current and past use
- Frequency of use
- History of overdose
- Rehab experiences

BATHROOM

- Access to a toilet

ENCAMPMENT

- Sleep environment
- Sleep position
- Sleep patterns
- Time of day sleep occurs

DAILY ROUTINE

- Activity during the day

SUBSTANCE USE

- Current and past use
- Frequency of use
- History of overdose
- Rehab experiences

HOUSED BEDS

Taking a history on a person experiencing unsheltered homelessness

PARTNERSHIPS

CITY COUNTY COMMUNITY

Purpose

- Increase access to resources for clients
- Enhance expertise and knowledge
- Align common goals
- Reduce costs
- Share resources
- Coordinate care
- Increase chances of success

CURRENT TRENDS

The San Diego Union-Tribune

HOMELESSNESS

Bill that would have reimbursed street medical teams vetoed

In this photo from 2019, homeless man Tomas Williams receives care by members of Father Joe's Villages street medical team Sheila Rocha (center) and Kristan Horney. Street medical teams would receive Medi-Cal reimbursement under a proposed bill by state Sen. Sydney Kamlager. (Sam Hodgson/The San Diego Union-Tribune)

History of Street
Health at Father Joe's
Villages

4

Street Health Today

5

Storytelling

FOUNDER

Dr. Jim Withers

- coined the concept of “street medicine” in the 1980s
- founded the Street Medicine Institute in 2005
- “classroom of the streets”
- “reality-based medicine”
- founded Operation Safety Net (OSN)

TRAILBLAZER

Brett Feldman, MSPAS, PA-C

- Director of Street Medicine & Assistant Professor of Family Medicine at the Keck School of Medicine of USC
- Vice Chair of the Street Medicine Institute
- practiced homeless medicine for 11 years
- founded three street medicine programs at:
 1. DeSales University Free Clinic
 2. Lehigh Valley Health Network (LVHN) Street Medicine in Allentown, PA
 3. USC Keck School of Medicine

TRAILBLAZER

Corinne T. Feldman, MMS, PA-C

- Corinne T. Feldman, MMS, PA-C
- Clinical Assistant Professor of Family Medicine in the USC Primary Care Physician Assistant Program
- Director of the Street Medicine rotation for the Keck Family Medicine Residency
- contributed to the development of shelter and street-based care in the Lehigh Valley (PA) and in Los Angeles
- has develop curriculum around health equity and social justice and is the PI for a \$1.5M HRSA grant called the USE PeaCE (Underserved Equity-Based Primary Care) Project

Street Health Program
launch

History

April 2020

- SH starts regular presence at Operation Shelter to Home providing urgent care services & COVID-19 testing

August 2020

- SH provides regular COVID 19 testing to PMC
- SH helps dental team pilot Street Dental

March 2021

- SH ends presence at Operation Shelter to Home
- SH starts 1 day/wk at Golden Hall

July 2021

- SH participates in the City's Focused Outreach Event for 4 wks

2020

March 2020

- Pandemic Begins

July 2020

- SH returns to the community 1 day/wk
- SH continues presence at Operation Shelter to Home

January 2021

- SH stops regular COVID 19 testing to PMC
- SH increases community sessions to 2 days/wk
- Innovation Project starts

April 2021

- SH partners with Scripps Health & PATH to pilot the in-reach model as part of the Innovation Project

October 2021

- SH expands presence in the community to 4 days/wk with 2 teams
- SH continues 1 day/wk at Golden Hall

Today

MODEL

- Outreach model
- Expansion to In-Reach model in January

TEAM

- Medical: APC + Medical Assistant + RN
- BH: AOD Counselor
- Outreach: Outreach Worker

SERVICES

- Medical care
- AOD counseling
- Narcan
- Expansion to MAT services in January
- Connection to resources & referrals
- Provide sustenance supply & hygiene packs

ACTIVITY

- 4 morning shifts/week in the community
- 1 morning shift/week at Golden Hall shelter
- Locations: 92101 areas
